Response to Applicant's Remarks

Applicant's response on 11/29/10 filed in response to the Non-Final Office Action dated 7/29/10 has been received and duly noted.

In view of this response, the status of the rejections/objections of record is as follows:

Status of the Claims

Claims 15 and 25 are allowable.

Claims 1-14 and 16-24 have been cancelled.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Rejection of claims 1, 6, 7-9, 12 and 13 are ejected under 35 U.S.C. 102(b) as being anticipated by Van Allan et al (Journal of Chemical and Engineering Data 1977, 22, 101-104) have been overcome in view of Applicant cancelling the claims.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1625

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Rejection of claims 1, 6-9, 12, 13, 16 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 2003/068183 (PTO-1449) have been overcome in view of Applicant cancelling the claims.

Rejection of claims 1, 6-9, 12, 13, 16 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Van Allan et al (Journal of Heterocyclic Chemistry 1971, 8, 367-371) in view of Basin et al Organic Process Research and Development 2000, 4, 427-435 have been overcome in view of Applicant cancelling the claims.

Rejection of claims 1, 6, 7-9, 12, 13, 16 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Boyd et al (Journal of the Chemical Society, Section

Art Unit: 1625

C: Organic 1967, 19, 1866-1868) in view of Basin et al Organic Process Research and Development 2000, 4, 427-435 have been overcome in view of Applicant cancelling the claims.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the “right to exclude” granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Rejection of claims 1, 6-10, 12-14, 16, 17, 23 and 24 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-16 of U.S. Patent No. 7,611,696 (10/494,500) have been overcome in view of Applicant cancelling the claims.
